CMHC | Housing Supply Challenge  
Round 5 | Level Up

**RE: Letter of Interest – COMPREHENSIVE EDUCATIONAL PLATFORM Instructor**

To Whom it May Concern;

The Conscious Builder Inc. is pleased to support Kilo Lima Code's **Building Codes and Beyond | A Systems Approach to the Canadian Housing Crisis** solution. We believe that Kilo Lima's approach to Building Code education can help build the capacity needed to increase the feasibility of building conversions.

We are a custom home builder and renovator focused on Passive House, NZE homes and energy retrofits. We also have a podcast and YouTube channel dedicated to teaching people how to build healthy, comfortable and efficient homes.

We are excited for the opportunity to share our niche knowledge through the COMPREHENSIVE EDUCATIONAL PLATFORM. The expertise we have is:

- Existing building challenges;
- Residential conversions;
- Tiny homes;
- Alternative solutions;
- Passive House;
- NetZero Homes; and
- Deep energy retrofits.

We encourage CMHC to support this Solution.

Yours truly,

Casey Grey  
Founder and CEO, The Conscious Builder Inc.
